Symbolic Linking

- On Win2000 machine "u5pc2" we have the following mapped for account 02023: H:\ is the home directory of the 02023 account <-- all files should be saved here!!! W:\ is a directory holding web pages for HiRA (and the experiment 02023 as well)

- you can make a symbolic link by ln -s /user/event3/02023/complete evt-data
